

1
2 Q. If new customers are not responsible for the historical balance is it NLH's
3 proposal that the existing balance is to be shared by the industrial customers that
4 took power while the historical balance was accumulated?
5

6 A. It is NLH's proposal that, with the exception of Aur Resources Inc., which was not
7 a member of the industrial class on December 31, 2003, the effective date of the
8 recovery of the historical balance, the RSP energy rate component for the other
9 members of the class would continue to include a historical balance element.
