

1 Q. Please detail any differences in the existing approved industrial customers
2 Service Agreements with respect to the calculation and application of rates.

3

4

5 A. The two customers with hydraulic generation resources have access to non-
6 firm energy when they are experiencing generation outages. In every other
7 respect, there are no differences amongst the four approved Island Industrial
8 Service Agreements as to the manner in which bills are calculated.

9

10 In the case of Aur Resources Inc., for the reasons stated in Hydro's
11 response to PUB 1.0 NLH, Hydro has proposed a variation in the method to
12 be used to determine Billing Demand as set out in Clause 2.06 of that
13 Service Agreement, to be effective for 2006 only.
