

1 **Q. Please provide on a table a listing of conversions from oil to electric heat for the**  
2 **period 1998 to current and forecast.**

3  
4 A. The Company does not have information related to the number of customers converting  
5 from oil to electric space heating. However, the Company does have information on the  
6 number of customers converting to and from electric space heating. This information  
7 does not identify the fuel that the electric space heating customer converted to or from  
8 (i.e. wood, oil, or propane).
