1 2 3 4	Q.	Please provide in a dollar amount the actual revenue collected by Newfoundland Power as a result of late payment charges for 1998 to current and forecast and please advise as to the actual interest rate charged.
5 6	A.	Late payment charges are billed in accordance with Section 10(c) of the Rules and Regulations as follows:
7		
8		"Bills are due and payable when issued. Payment shall be made at such place(s) as the
9		Company may designate from time to time. When a bill is not paid in full by the date that
10		a subsequent bill is issued and the amount outstanding is \$50.00 or more, the Company
11		may charge interest at a rate equal to the prime rate charged by chartered banks on the
12		last day of the previous month plus five percent."
13		
14		<> The forecast of Late Payment Charges for 2003-2004 is based on the 2002 actual
15		experience. The reduction in 2002 is primarily attributable to lower interest costs and a
16		reduction in overdue amounts.
17		
18		The actual revenue collected and average interest rate related to late payment charges
19		from 1998 to 2002 and forecast for 2003-2004 is as follows:
20		

Table 1 Newfoundland Power Late Payment Charges 1998-2004F					
Year	Average Interest Rate (%)	Late Payment Charges (\$000's)			
1998 Actual ¹ 1999 Actual ¹ 2000 Actual ¹	11.54 11.46 12.19	917 906 1,155			
2000 Actual ¹ 2001 Actual ¹ 2002 Actual ^{1<>} 2003 Forecast ³	12.19 11.10 9.21 n/a	1,135 1,029 829 850			
2004 Forecast ³	n/a	925
