NP 2003 GRA

For the period 2002 to 2007 provide a table of forecast annual demand and energy

Q.

A. Table 1 below provides forecast energy supply and demand for 2003 to 2007 based on existing rates. The forecast information requested for 2002 is provided along with the actual 2002 information in the Company's response to Request for Information NLH-214 (1st Revision).

supply showing purchases from Newfoundland and Labrador Hydro,

Newfoundland Power, losses and total supply.
