

General

Q. Ref: PUB-96 NP. How many versions of the database and development software currently in use by NP have been released since the last installed version.

A. Table 1 provides the number of subsequent releases, including service pack releases, for each database and development software item scheduled to be upgraded.

Table 1	
Last Installed Software Version	Number of Releases
Microsoft SQL Server 7, service pack 1	7
Oracle Database Management 2.1.0.1.0	4
ERWIN Application Development 3.5.2	4
