

1 **Q. DISTRIBUTION**

2
3 **PUB 11.0 (RE: p. 33 & 34 of 73) Meters (\$965,000)**

4
5 **PUB 11.4**

6 **What is the budgeted unit cost of an energy only meter?**

7
8 A. The budgeted material cost of a typical energy-only meter is \$37.50.

9
10 Labour cost of will vary depending on the circumstances of installation. For example, a
11 meter for a new service can be installed by linepersons on their normal work route and
12 have low incremental costs for travel time whereas meter replacements that require a
13 special trip for each meter have higher labour costs due to travel time.
