

Q. DISTRIBUTION

PUB 17.0 (RE: p. 47 & 48 of 73) Relocate/Replace Distribution Lines for Third Parties (\$734,000)

PUB 17.2

Does NP have any current information regarding projects that will be requested from third parties during the upcoming year? If so, please provide details.

- A. This project involves the relocation or replacement of distribution lines for third parties that results from: (1) work initiated by municipal, provincial and federal governments; (2) work initiated by other utilities such as Aliant Telecom, Persona and Rogers Cable; (3) requests from customers; or, (4) vehicle accident damage.

The table below provides a list of known projects that will generate requests from third parties in 2005. Since it is not uncommon for the Company to receive requests from third parties without a lot of advance notice, most of the projects for 2005 are not yet known. The budget for 2005 is based on projects known to the Company at the time of budget preparation and on historical expenditures, particularly expenditures in the current year.
