| 1   | Q. | DISTRIBUTION   |
|-----|----|--|
| 2 3 |    | PUB 18.0 (RE: p. 49 & 50 of 73) Distribution Reliability Initiative (\$872,000)                            |
| 4   |    |  |
| 5   |    | PUB 18.2   |
| 6   |    | Does NP consider this a multi-year project? If so, why does no amount appear                               |
| 7   |    | under Future Commitments?  |
| 8   |    |  |
| 9   | A. | The upgrade of the Lumsden/Cape Freels feeder (WES-02) proposed in the Company's                           |
| 10  |    | 2004 capital budget application, and approved by the Board in Order No. P.U. 35 (2003),                    |
| 11  |    | was the initial phase of a two-year project. The Company is proposing 2005 capital                         |
| 12  |    | expenditures of approximately \$407,000 to complete the project. However, the work                         |
| 13  |    | completed in 2004 will be used and useful, whether the second phase of the project is                      |
| 14  |    | completed or not. Consequently, the work proposed for completion in 2005 was not                           |
| 15  |    | shown in last year's capital budget filing as a Future Commitment.   |
| 16  |    |  |
| 17  |    | Similarly, the proposed upgrade of the Carmanville/Gander Bay feeder (GBY-02) will                         |
| 18  |    | extend over two years, with capital expenditures of approximately \$465,000 proposed for                   |
| 19  |    | 2005. However, the benefits of upgrading those portions of GBY-02 proposed for 2005                        |
| 20  |    | are independent of the work proposed for 2006. Consequently, there are no future                           |
| 21  |    | commitments associated with the capital expenditures proposed for 2005.                                    |
| 22  |    | In the second of the first that seconds on the first days second to take all and a second 2 seconds on the |
| 23  |    | In these cases, the fact that work on the feeders was to take place over 2 years was                       |
| 24  |    | identified in the filings. There were no future commitments <i>per se</i> because each years'              |
| 25  |    | work was part of the Company's ongoing annual efforts to maintain its distribution                         |
