6 **Provide the aggregate of all costs contained in the above projects that are directly**
7 **attributable to the growth in energy sales.**

8
9 A. A summary of the aggregate of capital expenditures in the noted Distribution projects
10 that are directly attributable to customer load growth is provided in the response to
11 Information Request PUB 27.1 NP. The majority of this growth is attributable to the
12 addition of new customers; however, a component of the total load growth is also
13 attributable to existing customers who increase their energy usage.

14
15 Newfoundland Power does not track expenditures attributable to the addition of new
16 customers separate from expenditures attributable to increased energy consumption by
17 existing customers.
