

1 **Q. INFORMATION SYSTEMS**

2
3 **PUB 47.0 (RE: B-71, Shared Server Infrastructure)**

4
5 **PUB 47.4**

6 **Please provide the quantitative and qualitative improvements that will be gained by**
7 **the purchase two servers “to improve the Company’s capabilities to recover its**
8 **applications and associated infrastructure in the event of a failure at its primary**
9 **computing facility” (appendix 6 page 1).**

10
11 **A.** The two servers in question will replace two existing eight year old servers that are not
12 capable of providing a test/development or recovery environment for the majority of the
13 Company’s applications and databases (i.e. Outage Management application).
14

15 The two replacement servers to be purchased in 2005 will provide the Company with the
16 ability to prepare a test/development and/or recovery environment for the applications
17 and databases that it is running today.
