

1 **Q. CA 6.0 NP**

2
3 **Reference: 2006 Accounting Policy Application, para. 15 (iii)**

4
5 **Preamble: NP proposes that “the disposition of the forecast remaining balance of**
6 **\$14,388,400 be determined by the Board in a future order.”**

7
8 **Based on NP’s current financial projections, when does the Company expect to file**
9 **its next General Rate Application?**

10
11 **A.** The Company currently expects to file its next general rate application (“GRA”) in
12 the third quarter of 2006. This will permit Newfoundland Power to include the results of
13 its next depreciation study in its next GRA.

14
15 Dealing with the proposals in the 2006 Accounting Policy Application now will allow for a
16 more orderly and efficient GRA process in 2006 as noted in the Response to PUB 6.0 NP.
