

- 1 **Q. Did Newfoundland Power Inc. investigate and consider using the design and**
2 **installation methods employed in the aforesaid Michigan penstock project when**
3 **undertaking the recent replacement of the New Chelsea penstock? If so, was it**
4 **pursued, and if not, why not?**
5
- 6 A. Newfoundland Power did not investigate and consider using the design and installation
7 methods employed at the Upper Peninsula Power Company's 2001 Victoria Dam
8 penstock replacement when undertaking the recent replacement of the New Chelsea
9 penstock.
10
- 11 The design used in the Victoria Dam penstock replacement is relatively unique for
12 hydroelectric power plant application.
13
- 14 Please refer to the Response to CA-18.0 NP.
