

1 Q. In relation to CA-NLH-157, will the number of MW required by the new owners of  
2 the Wabush Mines' facilities impact on the amount of recall power available to be  
3 used for Muskrat Falls' rate mitigation?

4

5

6 A. The number of MW required as a result of the reopening of the Wabush Mines  
7 facilities would impact the amount of Recapture Energy (recall power) available to  
8 be used for other purposes, including the reduction of Holyrood production for  
9 Muskrat Falls rate mitigation purposes.
