6 A. Please see Hydro's response to NP-NLH-011 and IN-NLH-005 and note that these
7 responses reflect Hydro's November 2014 update to its Labrador Interconnected
8 load forecast, which excludes forecast industrial requirements for expanded iron
9 ore mining.

¹ In this document, the term "Labrador East" will be used in accordance with its use in P.U. 14(2004).
