

1 Q. **Reference: Regulated Activities**

2 For the Island Interconnected System, provide a comparison of the 2013 test year  
3 fuel costs to 2014 and 2015 forecast fuel costs. The forecast fuel costs should be  
4 based upon the load forecast for 2014 and 2015 reflected in Table 2.17.

5  
6

7 A. [ ]

8

9 The table below provides a summary comparison of the 2015 Test Year fuel costs to  
10 Hydro's forecast fuel costs for 2016 and 2017.

11

**Island Interconnected Fuel Expenses (2015TY - 2017F)**

	2015	2016	2017
	Test Year	Forecast	Forecast
<b>No. 6 Fuel Production Cost (\$000)</b>	244,913.6	246,714.0	226,880.6
<b>Gas Turbine/Diesel Production Cost (\$000)</b>	3,560.8	5,391.1	8,067.3
