**Undertaking to get a copy of that email? ...if there's any indication internal to that email that there was an email ....prior to that or after that, I'd like to include that in the record in the undertaking request.**

As noted in the transcript, it was Mr. Henderson's recollection that there were communications between Mr. Banfield and Mr. Haynes on this issue. Hydro has been unable to find a copy of an email or other written communication in this regard.
