

1 Q. (Re: Response to PUB-NLH-8) In its December 2, 2013 letter, the Department of  
2 Natural Resources indicates that the transfer of the Exploits generation facilities to  
3 Hydro is to take place by June 2014. What is the status of the negotiations with the  
4 Ministry and what impact is the asset transfer expected to have on Hydro's cost of  
5 power and revenue requirement relative to the assumptions included in the GRA;  
6 i.e., purchase price of 4 cents/kWh?

7

8

9 A. The discussions are in the preliminary stages and therefore the impacts on the cost  
10 of power and revenue requirement are not yet available.
