

1 Q. Further to PUB-Nalcor 166, with the failure data in Exhibit 85, more recent
2 meteorological data and the analysis completed for the Avalon Upgrades, could an
3 analysis such as that performed for the Avalon Upgrades be completed for
4 TL202/206?

5
6
7 A. Such an analysis for TL202/206 is presented in Exhibit 87. As indicated in Nalcor's
8 response to PUB-Nalcor-166, the failure data from Exhibit 85 is not useful in this
9 analysis, as the loading in the area where the 1970 failure occurred is comparable
10 to that of the Avalon Region.
