

1   **Re: Page B-38, Replace Unit 2 High Pressure Heater, \$19,600 (2007), \$919,400**  
2   **(2008)**

3   Q.    Please provide an Engineering Report, if available, that detail an inspection  
4       of the high pressure heater and discuss the options, including the cost  
5       benefit analysis, for dealing with this problem.

6

7

8   A.    Please see response to IC21-NLH and IC23-NLH.
