1   Q.   **Re: B-7, Upgrade Marine Terminal – Holyrood $5,859,600 in 2012**

2   At page B15 Hatch recommended the installation of a laser sensor, display and

3   recording system to assist control and recording of vessel speed. Is this included in

4   the project and what is the cost?

5

6

7   A.   The implementation of the laser sensor, display and recording system to assist

8   control and recording of vessel speed is included in the project. The cost to

9   complete the installation is listed at $110,000 in the line item "Radar System" under

10   the "Vessel Approach/Loading Arms" section of the cost estimate for Jetty

11   Upgrades, on page B38.
