

1 Q. **Project C-136, Upgrade Transmission Line Access Trails:**

2 On page C-138, in Table 3, ATV and Snowmobile Incidents Since 2003 are tabulated.
3 Were the circumstances of these incidents subject to any occupational health and
4 safety review, or like internal review, by Hydro? If yes, provide complete copies of
5 the review results.
6
7

8 A. All incidents go through an internal review process. Reports are submitted and
9 reviewed by Supervisors, Management and then the Corporate Safety and Health
10 Department. All reports are sent via an electronic review and approval process. This
11 process is documented on each report (see Investigators, Safety Leader 1, Safety
12 Leader 2, and Corporate Safety sections of each incident report) attached to
13 response to IC-NLH-18. Incidents required to be reported to the OHS Division of the
14 Department of Government Services are reported by the Manager of the
15 employee(s) or asset involved in the incident.
