

1 Q. On page 9 of the *Supply and Install 100 MW (Nominal) of Combustion Turbine*
2 *Generation* report, Hydro states:
3 ***“As well, for added security in the event of higher demands, decreased reliability***
4 ***or for schedule slippage of the proposed combustion turbine proposed in service***
5 ***date, Hydro is proposing to negotiate interruptible contracts with major industrial***
6 ***customers at least for 2014-2015.”***

7 Is Hydro seeking approval from the Board to begin negotiations as a part of this
8 Application?

9
10

11 A. Hydro has already begun negotiations with major Industrial Customers regarding
12 interruptible contracts. The details around scope and cost of any such
13 arrangements will be provided in a future application to the Board, as required.
