

1 Q. On page 33 of the Report it is stated that one unit of interest to Hydro was an
2 unused 113 MW unit purchased in 2008 but never installed which had been
3 maintained to like new condition in storage. Confirm whether this is the unit that
4 Hydro has contracted to buy. If yes, explain in detail why the unit was never used
5 and the due diligence Hydro undertook to satisfy itself on its operating condition,
6 the warranty provided and its effectiveness, and the ability of the supplier to
7 perform its contractual obligations, including completion by the in-service date.

8

9

10 A. The referenced unit is the unit that Hydro has contracted to buy. Please see Hydro's
11 response to GT-DD-NLH-023 for further information about the unit's status as of the
12 date of purchase by Hydro.

13

14 For a complete list of due diligence activities undertaken by Hydro, please see
15 Hydro's response to GT-CA-NLH-005.
