

1 Q. Please provide information showing that the 100MW combustion turbine has the
2 lowest greenhouse gas emission output of all other alternatives.

3

4

5 A. The proposed combustion turbine does not have the lowest per kWh greenhouse
6 gas emission output of all other alternatives. Please refer to the **Lifecycle**
7 **Greenhouse Gas Emissions by Electricity Source** table in the response to GT-SC-
8 NLH-010.
