

1    Q.    Please confirm that neither Newfoundland Power nor Newfoundland Power's  
2           customers will bear any of the costs of the Labrador City Voltage Conversion Project  
3           now or into the future. If it cannot be confirmed, please explain why.

4

5

6    A.    The costs of serving the Labrador Interconnected System are recovered from the  
7           customers on the Labrador Interconnected System, and therefore, the costs  
8           associated with the Labrador City Voltage Conversion Project will not be borne by  
9           Newfoundland Power or Newfoundland Power's customers.
