and Board Secretary

Ladies & Gentlemen:

**Re: Newfoundland and Labrador Hydro Supplemental Capital Budget Application for
the construction of a new 230kV transmission line between the Bay d'Espoir and
Western Avalon Terminal Stations – Setting Remaining Schedule**

This is further to the Board's letter of October 15th, 2014 regarding the remaining schedule for Newfoundland and Labrador Hydro's supplemental capital budget application for the construction of a new 230kV transmission line between the Bay d'Espoir and Western Avalon Terminal Stations.

In its letter, the Board requested intervenors to advise of the need for additional information requests and if intervenors intended to submit expert evidence in the proceeding. Newfoundland Power advises that it does not wish to submit additional information requests and does not intend to submit expert evidence in the proceeding.

We trust the foregoing is found to be in order.

Yours very truly,

Peter Alteen, QC
