

1 **B-32 Construct Transmission Line Equipment Off-Loading Ramps, \$402,000**

2 Q. How often is it projected that these 30 Off-Loading Ramps will be used?

3

4

5 A. It is not possible to project the number of times each ramp will be used each
6 year. Hydro's line crews spend their days traveling our transmission lines
7 performing preventive maintenance and emergency repairs. Ramps will be
8 used on a daily basis, but it is not possible to predict precisely which ones
9 and how frequently each will be used.
