

## Newfoundland Labrador Hydro (NLH) Supply and Demand Status Report Filed Monday, September 26, 2022

### Section 1 Island Interconnected System Supply, Demand & Exports Actual 24 Hour System Performance For Friday, September 23, 2022

#### Supply Notes For September 23, 2022

- A As of 0800 hours, June 08, 2022, Holyrood Unit 1 unavailable due to planned outage (170 MW).
- B As of 0800 hours, July 31, 2022, Holyrood Unit 2 unavailable due to planned outage 150 MW (170 MW).
- C As of 1040 hours, August 27, 2022, Holyrood Unit 3 available but not operating (150 MW).
- D As of 1748 hours, September 11, 2022, Cat Arm Unit 2 unavailable due to planned outage (67 MW).
- E As of 0814 hours, September 12, 2022, Cat Arm Unit 1 unavailable due to planned outage (67 MW).
- F As of 0820 hours, September 22, 2022, Hinds Lake Unit available at 65 MW (75 MW).
- G At 1555 hours, September 23, 2022, Holyrood Gas Turbine available (123.5 MW).

### Section 2 Island Interconnected Supply and Demand

Sat, Sep 24, 2022	Island System Outlook <sup>3</sup>	Seven-Day Forecast	Temperature (°C)		Island System Daily Peak Demand (MW)	
			Morning	Evening	Forecast	Adjusted <sup>7</sup>
Available Island System Supply: <sup>5</sup>	1,467 MW	Saturday, September 24, 2022	17	16	690	690
NLH Island Generation: <sup>4,8</sup>	1,060 MW	Sunday, September 25, 2022	13	12	750	750
NLH Island Power Purchases: <sup>6</sup>	105 MW	Monday, September 26, 2022	14	17	750	750
Other Island Generation:	220 MW	Tuesday, September 27, 2022	18	18	740	740
ML/LIL Imports:	82 MW	Wednesday, September 28, 2022	18	17	745	745
Current St. John's Temperature & Windchill:	18 N/A °C	Thursday, September 29, 2022	13	12	785	785
7-Day Island Peak Demand Forecast:	830 MW	Friday, September 30, 2022	11	9	830	830

#### Supply Notes For September 24, 2022

- Notes:
1. Generation outages for running and corrective maintenance are included. These are not unusual for power system operations. They generally do not impact customer supply. The power system operators schedule outages to system equipment whenever possible to coincide with periods when customer demands are low and sufficient supply reserves are available. However, from time to time equipment outages are necessary and reserves may be impacted.
  2. Due to the Island system having no synchronous connections to the larger North American grid, when there is a sudden loss of large generating units there may be a requirement for some customer's load to be interrupted for short periods to bring generation output equal to customer demand. This automatic action of power system protection, referred to as under frequency load shedding (UFLS), is necessary to ensure the integrity and reliability of system equipment. Under frequency events have typically occurred 5 to 8 times per year on the Island Interconnected System and the resultant customer load interruptions are generally less than 30 minutes. With the activation of the Maritime Link frequency controller during the winter of 2018, UFLS events have occurred less frequently.
  3. As of 0800 Hours.
  4. Gross output including station service at Holyrood (24.5 MW) and improved NLH hydraulic output due to water levels (35 MW).
  5. Gross output from all Island sources (including Note 4).
  6. NLH Island Power Purchases include: CBPP Co-Gen, Nalcor Exploits, Rattle Brook, Star Lake, Wind Generation and capacity assistance (when applicable).
  7. Adjusted for curtailable load, market activities and the impact of voltage reduction when applicable.
  8. Due to limitations inherent in the design of combustion turbines, the output of combustion turbines may be reduced in the event that ambient temperatures exceed the threshold

### Section 3 Island Peak Demand Information Previous Day Actual Peak and Current Day Forecast Peak

Fri, Sep 23, 2022	Actual Island Peak Demand <sup>9</sup>	16:55	785 MW
Sat, Sep 24, 2022	Forecast Island Peak Demand		690 MW

Notes: 9. Island Demand / LIL / ML Exports (where applicable) is supplied by NLH generation and purchases, plus generation owned and operated by Newfoundland Power and Corner Brook Pulp & Paper (Deer Lake Power, DLP).
