

1 Q. Preamble: At the time of the compliance hearings of the NSUARB with respect to  
2 the Maritime Link, an Energy Access Agreement (“EAA”) was filed, executed on  
3 October 20, 2013. The Supplemental Decision of the NSUARB made clear that the  
4 EAA was not a final agreement, and that the parties had agreed to negotiate a  
5 “definitive energy access agreement”.

6 Has a definitive Energy Access Agreement been negotiated and ratified? If so,  
7 please provide a copy. If not, please provide the most recent version of the EAA,  
8 indicating the issues that remain to be agreed upon.

9  
10

11 A. A definitive Energy Access Agreement has not yet been finally negotiated and  
12 ratified. Please refer to Hydro’s response to PUB-NLH-220, item 8. The final  
13 agreement will definitively document the terms agreed upon in the current version  
14 of the EAA.
