

1 Q. Has NL Hydro entered into discussions with Hydro Quebec regarding the export of recalled  
2 power and energy sales via the Hydro Quebec facilities?

3

4

5 A. As exports of Recapture Energy are only undertaken when the power and energy is surplus to  
6 native requirements, the activity has no impact on reliability and resource adequacy within the  
7 province of Newfoundland and Labrador and therefore is not pertinent to this proceeding.
