

1 Q. **Reliability and Resource Adequacy Study Update, November 15, 2019**

2 ***TGS Study Reports***

3 Further to PUB-NLH-168 confirm that additional studies are being performed using the more
4 appropriate PSCAD software to investigate this matter. If so when will the results of any study
5 will be available, the risks to that date, and Hydro's estimation of the likelihood of availability at
6 that date.

7

8

9 A. Please refer to Newfoundland and Labrador Hydro's response to PUB-NLH-168. The simulations
10 are presently underway using PSCAD and results should be available as planned at the end of
11 the third quarter of 2020. At present, the study has started and is on schedule.
