

1 **Q. References: CBA, v. 1, Capital Budget, Detailed Breakdown, page B5 (pdf 197)**

2 a) Please provide a list of all Multi-Year Projects over \$50,000 planned for the
3 Labrador Interconnected System for 2019 through 2022 and, for each one,
4 indicate the cost and the reason the works are needed.

5

6

7 A. There are no multi-year projects that are solely for the Labrador Interconnected
8 System.

9

10 There are three multi-year projects (both previously approved and commencing in
11 2019) that have work scope for the Labrador Interconnected System. These include
12 “Terminal Station Refurbishment and Modernization – (2018-2019)”, “Terminal
13 Station Refurbishment and Modernization – (2019-2020)”, and “Upgrade Circuit
14 Breakers – (2016-2020)”.

15

16 Please refer to Hydro’s response to LAB-NLH-002 for details on project costs and
17 justification, and LAB-NLH-001 regarding the availability of justification and finalized
18 project estimates for projects in the “ 2019-2023 Capital Plan” that are not yet
19 before the Board.

20

21 This list does not include the “Muskrat Falls to Happy Valley Interconnection”
22 project, which is still before the Board for consideration.
