

1    **Q.**    **With reference to Hydro’s response to IIC-NLH-023:**

2            Please explain the difference between Hydro’s Application, Schedule 1, Appendix A, and the  
3            Workshop Presentation Slide 21, which both purport to show EV program NPVs. Which of these  
4            (if either) is associated with Table 1, Page 12 of Schedule 3 of the Application?

5

6

7    **A.**    As noted in Newfoundland and Labrador Hydro’s (“Hydro”) response to IC-NLH-023, Appendix A  
8            to Hydro’s application is with respect to Hydro’s Island Interconnected System retail customers  
9            only and excludes those located in Newfoundland Power Inc.’s (“Newfoundland Power”) service  
10           territory.

11           Slide 21 of the technical conference represents the net present value analysis associated with  
12           planned electrification programming for Newfoundland Power customers.

13           Table 1 on page 12 of Schedule 3 represents the impacts associated with the baseline and upper  
14           electric vehicle adoption scenarios as considered by Dunsky Energy Consulting.
