Attention: Ms. Cheryl Blundon
Director of Corporate Services & Board Secretary

Dear Ms. Blundon:

Re: Newfoundland and Labrador Hydro's Application for March 1, 2022 Customer Rates

Section 16 of Newfoundland and Labrador Hydro's ("Hydro") Rules and Regulations, *Policies for Automatic Rate Changes*, requires Hydro to adjust its rates as Newfoundland Power Inc. ("Newfoundland Power") changes its rates. On December 7, 2021, Newfoundland Power filed a revision to its 2022/2023 General Rate Application ("2022/2023 General Rate Application – 1st Revision") with the Board of Commissioners of Public Utilities ("Board") reflecting the Settlement Agreement reached on November 23, 2021. The 2022/2023 General Rate Application – 1st Revision proposed changes to the rates Newfoundland Power uses to bill its customers, to become effective March 1, 2022.

Although the Board has not yet approved Newfoundland Power's application, due to the compressed timeline for the implementation of customer rates effective March 1, 2022 and to allow adequate time for the Board to review, Hydro is filing its application herein assuming approval of Newfoundland Power's 2022/2023 General Rate Application – 1st Revision.

Should you have any questions, please contact the undersigned.

Yours truly,

Application for March 1, 2022 Customer Rates

February 11, 2022

An application to the Board of Commissioners of Public Utilities

IN THE MATTER OF the *Electrical Power Control Act, 1994*, SNL 1994, c E-5.1 (“*EPCA*”) and the *Public Utilities Act*, RSNL 1990, c P-47 (“*Act*”), and regulations thereunder; and

IN THE MATTER OF an application by Newfoundland and Labrador Hydro (“*Hydro*”) pursuant to Subsection 70(1) of the *Act* for the approval of a change in rates to be charged for the supply of power and energy to Hydro Rural customers that are subject to automatic rate changes as a result of a change in Newfoundland Power Inc. (“*Newfoundland Power*”) customer rates.

To: The Board of Commissioners of Public Utilities (“Board”)

THE APPLICATION OF HYDRO STATES THAT:

A. Background

1. Hydro is a corporation continued and existing under the *Hydro Corporation Act, 2007*, is a public utility within the meaning of the *Act*, and is subject to the provisions of the *EPCA*.
2. Under the *Act*, the Board has the general supervision of public utilities and requires that a public utility submit, for the approval of the Board, the rates, tolls, and charges for the service provided by the public utility and the rules and regulations that relate to that service.
3. Subsection 70(1) of the *Act* provides that a public utility shall not charge, demand, collect, or receive compensation for a service performed by it until the Board has approved a schedule of rates, tolls, and charges for the services provided by the public utility.
4. In Board Order No. P.U. 14(2007), the Board approved Policies for Automatic Rate Changes which requires Hydro to automatically adjust certain rates for its customers on the Island Interconnected System and the L’Anse-au-Loup System and its Isolated Rural customers.
5. In Board Order No. P.U. 30(2019), the Board approved Section 16(a)(ii) of Hydro’s Rules and Regulations, which direct rates for the Burgeo School and Library to be excluded from the July 1st Municipal Tax and Rate Stabilization Adjustments as well as any fuel rider adjustments.

6. In Board Order No. P.U. 24(2021), the Board approved the rates to be effective for all electrical consumption on or after July 1, 2021 for Hydro's Island Interconnected customers (rate classes 1.1, 1.1S, 1.3, 2.1, 2.3, 2.4, and 4.1) and Isolated Rural customers (rate classes 1.2D, 1.2DS, 2.1D, 2.2D, and 4.1D).
7. Section 16 of Hydro's Rules and Regulations, *Policies for Automatic Rate Changes*, requires the following:
 - (i) As Newfoundland Power changes its rates, Hydro will automatically adjust all Hydro Rural rates on the Island Interconnected System and the L'Anse-au-Loup System such that these customers pay the same rates as Newfoundland Power customers;
 - (ii) Rates for the Burgeo School and Library will increase or decrease by the average rate of change granted to Newfoundland Power from time to time, excluding: Newfoundland Power's changes for the July 1st Municipal Tax and Rate Stabilization Adjustments and any fuel rider adjustments;
 - (iii) Isolated Rural Domestic customers, excluding government departments, pay the same rates as Newfoundland Power for the basic customer charge and first block consumption (outlined in Rate 1.2D). Rates charged for consumption above this block will be automatically adjusted by the average rate of change granted Newfoundland Power;
 - (iv) Rates for Isolated Rural General Service customers, excluding government departments, will increase or decrease by the average rate of change granted Newfoundland Power from time to time; and
 - (v) As Newfoundland Power changes its rates, Hydro will automatically adjust Rural Isolated Street and Area Lighting rates, excluding those for government departments, such that these rates are the same as charged Newfoundland Power customers.

B. Flow Through of Newfoundland Power Rates

8. On December 7, 2021, Newfoundland Power filed a revision to its 2022/2023 General Rate Application ("2022/2023 General Rate Application – 1st Revision") reflecting the Settlement Agreement reached on November 23, 2021. The 2022/2023 General Rate Application – 1st

Revision proposed changes to the rates Newfoundland Power uses to bill its customers, to become effective March 1, 2022.

9. In accordance with Section 16 of Hydro's Rules and Regulations, *Policies for Automatic Rate Changes*, to derive revised rates to apply to Hydro's rate classes, Hydro has applied the same rate as Newfoundland Power or applied percent decreases by class proposed by Newfoundland Power as the case may be. Hydro is proposing to apply the following, upon approval of Newfoundland Power's proposed rates, to be effective March 1, 2022:
 - (i) An adjustment to all rates on the Island Interconnected System and the L'Anse-au-Loup System such that these customers pay the same rates as Newfoundland Power's customers;
 - (ii) An adjustment to the basic customer charge and first block energy rate to equal that proposed by Newfoundland Power, being a 1.1% decrease to the 2nd block and 3rd block on the Non-Government Domestic Diesel rates;
 - (iii) A 1.1% decrease to the Non-Government General Service 0-10 kW rate (Rate 2.1D);
 - (iv) A 1.1% decrease to the Non-Government General Service 10-100 kW rate (Rate 2.2D);
and
 - (v) A 1.1% decrease to the Burgeo School and Library rate.
10. Schedule 1 to this application provides the calculations of the proposed Isolated System rates reflecting the proposed rate change by class reflected in Newfoundland Power's application.
11. Hydro proposes to implement new rates, as provided in Schedule 2, to become effective March 1, 2022 for Hydro's Island Interconnected customers (rate classes 1.1, 1.1S, 1.3, 2.1, 2.3, 2.4, and 4.1), including the Burgeo School and Library, and Isolated Rural customers (rate classes 1.2D, 1.2DS, 2.1D, 2.2D, and 4.1D) excluding government departments.
12. The proposed rates are in accordance with Section 16 of Hydro's Rates and Regulations, *Policies for Automatic Rate Changes*.

C. Deferred Diesel Increase

13. In Order in Council OC2021-174, government continued its direction to the Board regarding a policy for Non-Government Rural Isolated Domestic and General Service customers of Hydro that stipulates that any changes in rates charged to these customers shall be equal to changes approved for equivalent rate classes of Newfoundland Power customers. That Order in Council is effective up to July 1, 2022, at which time, absent further direction, the rates for those customers will be those that would have come into effect but Order in Council OC2021-174 and directives OC2006-512, OC2008-365, OC2009-390, OC2010-322, OC2012-329, OC2014-372, OC2015-300, OC2016-104, OC2016-287, OC2017-121, OC2017-193, OC2018-116, OC2019-166, OC2020-105, OC2021-174 all of which had previously deferred rate increases resulting from Hydro's 2007 General Rate Application.

D. Newfoundland and Labrador Hydro's Requests

14. Therefore, Hydro requests that the Board approve, pursuant to Subsection 70(1) of the *Act*, rate changes applicable to Hydro's Island Interconnected, L'Anse-au-Loup, and Non-Government Isolated Diesel as set out in Schedule 2 to this application to become effective March 1, 2022.

DATED at St. John's in the Province of Newfoundland and Labrador this 11th day of February, 2022.

¹ Source: Newfoundland Power 2022/2023 General Rate Application - 1st Revision, dated December 7, 2021, Exhibit 10.

² Given Newfoundland Power's Rate 2.1 is for service between 0-100 kW, Hydro has applied the proposed NP Rate 2.1 decrease of 1.1% to both Rate 2.1D (0-10 kW) and Rate 2.2D (over 10 kW).

³ For Rate 2.1D and 2.2D, the differential between the basic customer charge for unmetered is \$8 less than single phase and three phase is \$12 more than single phase.

⁴ Minimum monthly charges for unmetered and single phase are equal to the monthly basic customer charges.

⁵ The street lighting rates in diesel areas are the same as the street lighting rates of Newfoundland Power. The 250W MV rate equals the rate of the 150W HPS.

¹ In accordance with Hydro's policy for automatic rate changes, the rate decrease for the Burgeo School and Library will exclude July 1st MTA and RSP adjustments. As a result, this rate decrease is 1.1% as per Exhibit 10 of Newfoundland Power's 2022/2023 General Rate Application - 1st Revision, dated December 7, 2021. The 1.1% decrease reflects the flow through impacts on the MTA and RSP for the base rate change.
