

1 Q. Has NL Hydro studied or hired others to study Demand Response programs in other energy
2 jurisdictions? If so, which ones and what were the results?

3

4

5 A. Yes. Newfoundland and Labrador Hydro's Conservation and Demand Management Potential
6 Study¹ was prepared by Dunsky Energy Consulting. This study examined the demand response
7 potential for both the Island and Labrador Interconnected Systems specifically, and was
8 informed by demand response programming present in other jurisdictions.
