

1 Q. **Reference: Volume I, Section 6.5, Issue Topic: Rural Deficit**

2 Please provide a table showing revenue requirement by component for each rural deficit area
3 for the years 2019 to the 2027 test year as well as the 2019 test year. For power supply costs,
4 please provide a breakdown to show costs related to Muskrat Falls and rate mitigation
5 separately. For operating costs, please provide a breakdown between labour and non-labour
6 costs. Please also include FTEs in the table.

7
8
9 A. Please refer to Newfoundland and Labrador Hydro's ("Hydro") response to NP-NLH-114 of this
10 proceeding for a breakdown of revenue requirement by component for each Rural Deficit area.
11 Hydro has not systemized the number full-time equivalents in the Cost of Service Study;
12 therefore, this information is not be included in the table.
