

1 Q. **Reference: Volume III, Exhibit 10 – Electrification Cost Deferral Account Definition (“ECDA”)**

2 The account definition states that the portion of the Recoverable Amount which is re-allocated
3 to Labrador Interconnected customers shall be charged to the ECDA for future recovery from
4 customers on the Labrador Interconnected System. Will Hydro track the Labrador
5 Interconnected portion as a separate component of the ECDA going forward to ensure proper
6 allocation of costs? Explain.

7
8
9 A. Yes, Newfoundland and Labrador Hydro (“Hydro”) will track the Labrador Interconnected
10 System portion as a separate component going forward to ensure proper allocation of costs. The
11 tracking will be similar to conservation and demand management, which separates the Labrador
12 Interconnected System portion as shown in Schedule D-V: Summary of Deferred Charges of
13 Hydro’s 2026 General Rate Application.
