

- 1 **Q. Please provide the typical annual consumption of a residential customer:**
2 • **With no electric heating or hot water**
3 • **With electric hot water, but no electric heating**
4 • **With electric hot water and electric heating**
5
6 **A.** Table 1 provides typical annual electricity consumption for a residential customer under
7 the three scenarios described above. The level of electricity consumption is based on a
8 typical family of four, occupying an 1,100 square foot single detached dwelling.

Table 1
Typical Annual Residential Electricity Consumption

Category	Annual kWh Consumption
No electric heating or hot water	9,300
Electric hot water but no electric heating	14,200
Electric hot water and electric heating	28,500
