

- 1 **Q.** (page 3-3[sic]¹, Table 3-3) What is the basis for the “*purchases from Hydro*” dollar
2 **amounts included in Table 3-3 for 2019 and 2020? When are the costs of Muskrat**
3 **Falls expected to be incorporated in purchase costs?**
4
5 A. The purchased power costs included in Table 3-3 for 2019 and 2020 forecast are based on
6 (i) the *Customer, Energy and Demand Forecast*, dated April 2018;² and (ii) the Utility
7 Rate charged by Newfoundland and Labrador Hydro (“Hydro”), effective July 1, 2017.³
8
9 The timing of revised purchased power rates charged by Hydro reflecting Muskrat Falls
10 costs is currently unknown.

¹ Reference should be page 3-5.

² See *Volume 2, Supporting Materials, Report 3: Customer, Energy and Demand Forecast*.

³ The Utility Rate charged by Hydro to Newfoundland Power was approved by the Board in Order No. P.U. 22 (2017). The flow-through of the revised Utility Rate to Newfoundland Power’s customer rates was approved by the Board in Order No. P.U. 23 (2017).
