

- 1 **Q. (PUB-NP-12) The response discusses various means for mitigating customer rate**  
2 **impacts owing to Muskrat Falls. It is stated “Government has indicated that it intends**  
3 **to limit residential rates to approximately 17¢/kWh.” Is NP aware of any other**  
4 **Government commitment or direction (besides the source quoted in footnote 16)**  
5 **that it intends to limit customer rate impacts?**  
6
- 7 A. There have been numerous public Government *indications* that customer rate impacts are  
8 to be limited. Other than these public indications, Newfoundland Power is not aware of  
9 any specific Government *commitment or direction* on this topic.
