**Attention: G. Cheryl Blundon, Director of
Corporate Services / Board Secretary**

Dear Ms. Blundon:

**RE: Newfoundland Power Inc. – 2022-2023 General Rate Application
Consumer Advocate's Revised Witness List**

This is in reply to the Board Secretary's correspondence dated 2021-10-20 regarding the Consumer Advocate's witness list filed on October 19th, 2021.

The revised witness list indicated that John Todd would be called as an additional witness in the above-noted proceeding. The Board Secretary's correspondence indicated that the Consumer Advocate must submit a formal request directly to the Board to amend the schedule for the filing of expert pre-filed evidence, the witness list, as the date for filing of pre-filed evidence had passed (September 28, 2021) and the date for the filing of the witness list had passed as well (October 12, 2021).

Further, the Board Secretary indicated that the Consumer Advocate must outline the nature of the evidence to be provided, its relevance to the General Rate Application and an explanation for the evidence not being filed in accordance with the established schedule.

The following then is the Consumer Advocate's direct request to file the evidence of the witness John Todd and to call him as a witness in these proceedings.

The Nature of the Evidence

John Todd has co-authored a report dated August 13th, 2021, which report is titled Comments on Newfoundland Power's 2022 Capital Budget Application (the "Elenchus Report").

This report is part of the record in a separate application before the Board, being Newfoundland Power's 2022 Capital Budget Application.

The Elenchus Report refers to, *inter alia*, transformations taking place in the electricity market, which in his opinion, should be considered by an electric utility company prior to seeking

capital expenditures. Ultimately, industry trends are something the Board should be versed in prior to approving rates. It is the Elenchus Report which the Consumer Advocate requires now to be filed as evidence in the General Rate Application and for John Todd to testify as to his findings.

The Relevance of the Elenchus Report

The Board itself has made the Elenchus Report relevant by way of the following requests for information put to Dr. Laurence Booth, the Consumer Advocate's cost of capital expert.

PUB-CA-011 *Evidence, page 47, line 4 to page 48, line 27.*

- (a) *Is Dr. Booth familiar with the evidence of Dr. John Todd filed by the Consumer Advocate in Newfoundland Power's 2022 Capital Budget Application that states concerns that utilities are already experiencing a "death spiral" because of technological changes?*
- (b) *How does Dr. Booth reconcile Dr. Todd's opinion that technological changes will impact utility operations with Dr. Booth's opinion that it does not increase Newfoundland Power's risk?*

Thus, the PUB now requires Dr. Booth to review and familiarize himself with the Elenchus Report to answer PUB-CA-011. By posing this RFI the Board has imported the Elenchus Report into these proceedings by reference.

The Elenchus Report makes the general observation that Newfoundland Power's Capital Budgeting process is prone to the Averch-Johnson Effect (the "A-J Effect") thereby preferring maximal capital investment rather than less expensive operational and maintenance initiatives. The Elenchus Report further suggests that Newfoundland Power's failure to recognize imminent technological changes in the electricity industry, by continuing to invest in traditional systems, may leave it with stranded, obsolete capital all of which would have been paid for by the rate payers. These rates, of course, would have been approved by the Board by way of Newfoundland Power's General Rate Applications. The issue of technological change as referred to in PUB-CA-011, the risks these changes may pose, and the effect of these risks may have on rates, is relevant to these proceedings. It would be manifestly unfair for the Board to raise the issue, as it has, request the Consumer Advocate's witness to comment on the issue by referring to a document which is not on the record, and then refuse to allow a full examination of the document itself and its author.

Further, PUB-CA-011 poses a leading question, as the question itself concludes that the Elenchus Report has stated that "utilities are already experiencing a "death spiral" because of technological changes".

Nowhere in the Elenchus Report did it conclude that utilities are *already* experiencing a death spiral.

Thus, not only has the Elenchus Report been made relevant to these proceedings by the Board's own inquiry, and thus should now form part of the body of the evidence, but its author, John Todd should be allowed to speak to the Board's interpretation of same.

The Explanation for the Evidence Not Being Filed in Accordance with the Established Schedule

The Board's RFIs, including PUB-CA-011 were filed and served on Friday the 8th of October, after the date due for the filing of pre-filed evidence by the parties being September 28th.

Dr. Booth cannot now answer PUB-CA-011 without familiarizing himself with the evidence of John Todd, being the Elenchus Report.

Since the Elenchus Report has now been made relevant to this proceeding, the Consumer Advocate amended its witness list on October 19th, adding John Todd, and by necessary implication, the Elenchus Report.

No Prejudice to the Parties

The Elenchus Report has been filed with the Board in relation to Newfoundland Power's Capital Budget Application 2022 and all of the parties to the General Rate Application have had ample opportunity to review it in that context and, in fact, have asked RFIs to further inform themselves regarding its contents.

Likewise, the Board should be familiar with the Elenchus Report as it too has asked RFIs regarding the report in both Newfoundland Power's Capital Budget Application 2022, and in these proceedings as well.

Thus, no prejudice can be demonstrated in this case by the amendment of the witness list adding John Todd and allowing his report to be included as pre-filed evidence in these proceedings since, as indicated above by the Board's own questions, the Elenchus Report has been imported by reference into these proceedings in any event, and all parties are quite familiar with its contents.

We would therefore request that the schedule for the filing of pre-filed evidence and the witness list be amended to accommodate the Consumer Advocate request to file the evidence of John Todd and add Mr. Todd as a witness to the proceeding.

John Todd's resume is attached for your reference.

Yours truly,

Stephen Fitzgerald
