IN THE MATTER OF the Electrical Power
Control Act, 1994, SNL 1994, Chapter B-5.1 (the
“EPCA”) and the Public Utilities Act, RSNL 1990,
Chapter P-47 (the “Act”), as amended, and regulations
thereunder; and

IN THE MATTER OF an application by
Newfoundland and Labrador Hydro for approval
of a Contribution in Aid of Construction from Cooke
Aquaculture Inc. for the upgrade of a distribution line
from single-phase to three-phase service in Daniel’s
Harbour pursuant to section 41 of the Act.

WHEREAS Newfoundland and Labrador Hydro (“Hydro”) is a corporation continued and
existing under the Hydro Corporation Act, 2007, is a public utility within the meaning of
the Act, and is also subject to the provisions of the EPCA; and

WHEREAS Cooke Aquaculture Inc. (“Cooke Aquaculture”) has requested that Hydro
upgrade approximately nine kilometers of distribution line in Daniel’s Harbour from a
single-phase service to a three-phase service; and

WHEREAS Cooke Aquaculture has advised Hydro that the primary purpose for the
upgrade is to facilitate economic growth in the region and specifically to meet the
immediate electrical needs of its Kelly Cove Salmon Fish Hatchery located in the
community of Daniel’s Harbour; and

WHEREAS in Order No. P.U. 6(2013) the Board approved a Contribution in Aid of
Construction (“CIAC”) of $287,472.49, excluding HST, for the Red Ochre Regional
Economic Development Board to upgrade the distribution line serving the Kelly Cove Fish
Hatchery in Daniel’s Harbour from single-phase to three-phase service; and

WHEREAS following the Board’s approval of the CIAC in Order No. P.U. 6(2013), the
Red Ochre Regional Economic Development Board office closed and the upgrade of the
distribution line was delayed; and

WHEREAS on June 20, 2014 the Board received an application from Hydro for approval
of a CIAC from Cook Aquaculture to upgrade the distribution line serving the Kelly Cove
Salmon Fish Hatchery in Daniel’s Harbour to provide three-phase service; and
WHEREAS the estimated construction cost of the upgrade is $372,681.59 and is based on a detailed engineering estimate in accordance with Clause 5(e) of the CIAC Policy: Distribution Line Extensions and Upgrades to General Service Customers approved by Order No. P.U. 27(2005), dated November 2, 2005 (the “Policy”); and

WHEREAS the proposed CIAC for the upgrade in the amount of $329,806.72, excluding HST, was calculated in accordance with Clause 5(e) of the Policy; and

WHEREAS Clause 10(ii) of the Policy states that Hydro shall apply to the Board for approval of all line extensions or upgrades involving CIACs where the costs of the line extension or upgrade are calculated pursuant to Clause 5(e); and

WHEREAS approval of the proposed CIAC from Cooke Aquaculture is reasonable and prudent to ensure that Hydro’s investment in the upgrade is compensatory over the useful life of the upgrade and not to the detriment of Hydro’s other customers.

IT IS THEREFORE ORDERED THAT:

1. The Contribution in Aid of Construction of three hundred and twenty-nine thousand, eight hundred six dollars and seventy-two cents ($329,806.72), excluding HST, to provide three-phase service to the Cooke Aquaculture Inc. Kelly Cove Salmon Fish Hatchery in Daniel’s Harbour is approved.

2. Hydro shall pay all expenses of the Board arising from this Application.
DATED at St. John’s, Newfoundland and Labrador, this 11th day of July, 2014.

Darlene Whalen, P.Eng.
Vice-Chair

Dwanda Newman, LL.B.
